2020 Skate Canada Challenge

Communication #1
Date: November 29, 2019
To: Section Team Leaders
From: Skate Canada

During manual verification of Junior Rhythm Dance results, it was discovered that the base values for the following elements were not revised for the 2019/2020 season.

- NtMiSt3 from 7.45 to 7.70
- NtMiSt4 from 7.95 to 8.45

As this was discovered during the event, teams that had this element identified at either of these levels will have detail sheets recalculated to the correct value with these marked as revised.

The program used to score all domestic competitions will be updated to correctly reflect these values moving forward.
