

Skate Canada – Judge/Referee Video Replay instructions

The purpose of this document is to describe use of the Skate Canada Video Replay module used by judges and referees.

Once the competitor has finished their performance and the Data Specialist has pressed the Stop Skater command on their screen, a bright green button in the lower right-hand corner of your screen titled Video Replay will appear.

The screenshot displays a video player interface for a figure skating performance. On the left, a list of elements is shown:

- 1 2A+2T+COMBO
- 2 2T
- 3 LSp
- 4 2Lz
- 5 StSq
- 6 CCoSp

The main video area shows a skater in a red dress performing a crouching start on an ice rink. Below the video, a control bar contains the following buttons: Play, Pause, Back 3 secs, Back 10 secs, FastFwd, Normal Speed, and Return. The 'FastFwd' and 'Normal Speed' buttons are circled in red. A timer in the bottom left corner shows Video Time at 02:53 and Play Time at 00:11. A progress bar is visible at the bottom of the interface.

If you wish to quickly move back to an earlier point in the element, you can either jump back 3 seconds, or 10 seconds by pressing either of these buttons. Once the element clip has moved back that amount of time, it will play for you at regular speed. This function is also helpful if the Video Replay Operator accidentally missed the beginning of an element while creating the element clip.
